

# SEMINAR ON

## Advancing Digital Learning In Malaysia, Europe, Cambodia and Lao PDR

SEPTEMBER 9TH & 10TH 2024

The benefits of digital learning are already well-established: regions that embrace digital education are better prepared for future challenges, offering students greater access to knowledge and innovative skills. If this is the case, then why are some countries still lagging in its implementation?

Join us for a two-day panel discussion with leading experts from Malaysia, Europe, Cambodia, and Lao PDR—including researchers, educational innovators, and technology specialists—to explore strategies for regional collaboration and transformation in digital learning.
